NOTE

The Society is not responsible, as a body, for the statements and opinions advanced in this publication.
Foreword

The papers in this volume were presented at the Symposium on Restraint in Fire Test—Measurement and Control of Smoke in Building Fires, during two sessions of the 69th Annual Meeting of the Society, in Atlantic City, N. J., 26 June–1 July, 1966. The symposium was sponsored by Committee E-5 on Fire Tests of Materials and Construction. The symposium chairman was C. C. Carlson, Portland Cement Association. Presiding at the two sessions were Mr. Carlson and A. F. Robertson, National Bureau of Standards.
