Handbook of Stainless Steels
edited by D. Peckner and J. M. Bernstein

Printed in Baltimore, Md.
January 1977
Foreword

This special technical publication appears as Chapter 6 of *Handbook of Stainless Steels* published by McGraw-Hill Book Company and is reprinted here by permission. Committee A-1 on Steel, Stainless Steel, and Related Alloys of the American Society for Testing and Materials is the sponsor of this publication.

A Note of Appreciation
to Reviewers

This publication is made possible by the authors and, also, the unheralded efforts of the reviewers. This body of technical experts whose dedication, sacrifice of time and effort, and collective wisdom in reviewing the papers must be acknowledged. The quality level of ASTM publications is a direct function of their respected opinions. On behalf of ASTM we acknowledge with appreciation their contribution.
