Foreword

The symposium on Fatigue of Filamentary Composite Materials was presented at a meeting held in Denver, Colo., 15-16 Nov. 1976. The symposium was sponsored by the American Society for Testing and Materials through its Committee E-9 on Fatigue and Committee D-30 on High Modulus Fibers and Their Composites. K. L. Reifsnider, Virginia Polytechnic Institute and State University, presided as symposium chairman and coeditor and K. N. Lauraitis, Lockheed-California Company, served as symposium cochairman and coeditor of this publication.

A Note of Appreciation to Reviewers

This publication is made possible by the authors and, also, the unheralded efforts of the reviewers. This body of technical experts whose dedication, sacrifice of time and effort, and collective wisdom in reviewing the papers must be acknowledged. The quality level of ASTM publications is a direct function of their respected opinions. On behalf of ASTM we acknowledge with appreciation their contribution.
