Foreword

The papers in this publication were presented at a symposium held in Denver, Colo., 28 June 1977. The symposium was sponsored by the American Society for Testing and Materials' Committee D-18 on Soil and Rock for Engineering Purposes. M. L. Silver, University of Illinois, and Drew Tiedemann, U.S. Bureau of Reclamation, presided as symposium cochairmen.

A Note of Appreciation to Reviewers

This publication is made possible by the authors and, also, the unheralded efforts of the reviewers. This body of technical experts whose dedication, sacrifice of time and effort, and collective wisdom in reviewing the papers must be acknowledged. The quality level of ASTM publications is a direct function of their respected opinions. On behalf of ASTM we acknowledge with appreciation their contribution.
