Foreword

The Symposium on Application of 2 1/4Cr-1Mo Steel for Thick-Wall Pressure Vessels, sponsored by the Metal Properties Council, was held in Denver, Colorado, on 19-20 May 1980. G. S. Sangdahl, Chicago Bridge & Iron Company, and M. Semchyshen, Climax Molybdenum Company, served as symposium chairmen and also edited this publication.

A Note of Appreciation to Reviewers

This publication is made possible by the authors and, also, the unheralded efforts of the reviewers. This is a body of technical experts whose dedication, sacrifice of time and effort, and collective wisdom in reviewing the papers must be acknowledged. The quality level of ASTM publications is a direct function of their respected opinions. On behalf of ASTM we acknowledge with appreciation their contribution.
