Foreword

The papers in this publication, *Aquatic Toxicology and Hazard Assessment: Seventh Symposium*, are taken from the seventh in a series of annual symposia on Aquatic Toxicology sponsored by ASTM. This seventh symposium, held 17–19 April 1983 in Milwaukee, Wisconsin, was, like its immediate predecessor, sponsored by ASTM Committee E-47 on Biological Effects and Environmental Fate. The first five symposia in this series were sponsored by ASTM Committee E-35 on Pesticides.

Chairing this symposium were Rick D. Cardwell, Envirosphere Company, Rich Purdy, 3M Company, and Rita Comotto Bahner, Association of Official Analytical Chemists, all of whom also served as editors of this publication.

A Note of Appreciation to Reviewers

The quality of the papers that appear in this publication reflects not only the obvious efforts of the authors but also the unheralded, though essential, work of the reviewers. On behalf of ASTM we acknowledge with appreciation their dedication to high professional standards and their sacrifice of time and effort.
