Foreword

The symposium on High Modulus Fiber Composites in Ground Transportation and High Volume Applications was held in Pittsburgh, Pennsylvania on 7 Nov. 1983. ASTM Committee D-30 sponsored the symposium. D. W. Wilson, University of Delaware, Center for Composite Materials, presided as symposium chairman. D. L. Denton, R. E. Evans, C. D. Shirrell, and S. S. Wang presided as session chairmen.

A Note of Appreciation to Reviewers

The quality of the papers that appear in this publication reflects not only the obvious efforts of the authors but also the unheralded, though essential, work of the reviewers. On behalf of ASTM we acknowledge with appreciation their dedication to high professional standards and their sacrifice of time and effort.

Contents

Introduction	1
The Influence of Microstructural Variability upon the Scatter in Mechanical Properties of R25 Sheet Molding Compound— C. D. SHIRRELL	3
Use of X-radiographic Tracers to Measure Fiber Orientation in Short Fiber Composites—D. L. DENTON AND S. H. MUNSON-McGEE	23
Fatigue Crack Growth and Lifetime Trends in Injection Molded Reinforced Thermoplastics—J. F. MANDELL, F. J. MCGARRY, AND C.-G. LI	36
Analysis of Flexural Fatigue Damage in Unidirectional Composites—G. M. NEWAZ	51
Axial Fatigue of SMC-R65 Sheet Molding Compound in Liquid Environments—A.-D. NGO, S. V. HOA, AND T. S. SANKAR	65
Characterization of Bolted Joint Behavior in SMC-R50— D. W. WILSON	73
Thermoelastic Response of the Cylindrically Orthotropic Disk— Numerical and Experimental Evaluation—J. W. GILLESPIE, JR. AND R. B. PIPES	86
Hygrothermal Degradation of Sheet Molding Compounds— A. HOSANGADI AND H. T. HAHN	103
Resin Flow During Autoclave Cure of Graphite-Epoxy Composites—A. LOOS AND W. T. FREEMAN	119
Viscoelastic Response of SMC-R50 Under Different Thermomechanical Conditions—S. C. YEN, C. HIEL, AND D. H. MORRIS	131
Using ASTM D 4065 for Predicting Processability and Properties—S. B. DRISCOLL	144
