NOTE
The Society is not responsible, as a body, for the statements and opinions advanced in this publication.
Foreword

The Symposium on Mass Spectrometric Characterization of Shale Oils was held at the 30th Annual Conference of the American Society for Mass Spectrometry, Honolulu, Hawaii, 6–11 June 1982. ASTM Committee E-14 on Mass Spectrometry and the American Society for Mass Spectrometry were cosponsors. Thomas Aczel, Exxon Research and Engineering Company, served as symposium chairman and has edited this publication.
A Note of Appreciation to Reviewers

The quality of the papers that appear in this publication reflects not only the obvious efforts of the authors but also the unheralded, though essential, work of the reviewers. On behalf of ASTM we acknowledge with appreciation their dedication to high professional standards and their sacrifice of time and effort.

ASTM Committee on Publications
## Contents

**Overview**

Gas Chromatographic/Mass Spectrometric Analysis of Paraho Shale Oil $< 260^\circ C$ (500°F) — E. J. GALLEGOS  

Mass Spectral Characterization of the Acid and Base Fractions from an Eastern and Western Shale Oil — GIL GREENWOOD  

Characterization of Nitrogen Compound Types in Hydroprocessed Shale Oil Products with Mass Spectrometry and Potentiometric Titration — RICHARD A. HEPPNER, STEVEN A. HOLMES, AND JAMES H. WEBER  

Determination of Field-Ionization Sensitivities for Saturated Hydrocarbons in the Presence of Acetone and Their Application to the Analysis of Shale-Oil Saturates — STUART E. SCHEPPELE, QUIRINUS G. GRINDSTAFF, AND PATRICK L. GRIZZLE  

Pyrolysis Mass Spectrometry and Multivariate Analysis of Several Key World Oil Shale Kerogens and Some Recent Alginites — HENK L. C. MEUZELAAR, WILLEM WINDIG, JEAN H. FUTRELL, ALICE M. HARPER, AND STEVE R. LARTER  

An Evaluation of Triple Quadrupole Mass Spectrometry/Mass Spectrometry (MS/MS) for On-Line Gas Analysis of Trace Sulfur Compounds from Oil Shale Processing — CARLA M. WONG, RICHARD W. CRAWFORD, AND RICHARD A. YOST
