FOREWORD

The papers and discussions in this Symposium on Use of Pozzolanic Materials in Mortars and Concretes were presented at the Cement and Concrete Session of the First Pacific Area National Meeting of the American Society for Testing Materials, held in San Francisco, Calif., October 12, 1949. T. E. Stanton, Materials and Research Engineer, California Division of Highways, was in charge of arrangements for this symposium.

Mr. R. F. Blanks, Chief of Engineering Control and Research Division, U. S. Bureau of Reclamation, Denver, Colo., acted as Chairman for the symposium session.

NOTE.—The Society is not responsible, as a body, for the statements
and opinions advanced in this publication.

CONTENTS

	PAGE
Introduction—T. E. Stanton	1
Pozzolanic Materials and Their Use in Concrete—R. E. Davis.	3
Pozzolans Used in Mass Concrete—H. S. Meissner.	16
Experience with Pozzolanic Materials in Kansas—C. H. Scholer and R. L. Peyton . . .	31
Effect of Calcination on Natural Pozzolans—R. C. Mielenz, L. P. Witte, and O. J. Glantz	43
Discussion	92
Effect of the Use of Diatomite Treated with Air-Entraining Agents upon the Properties of Concrete—R. E. Davis and A. Klein	93
Summary of Methods for Determining Pozzolanic Activity—W. T. Moran and J. L. Gilliland	109
Strength, Volume Change and Sulfate Resistance of Mortars Containing Portland-Pozzolan Cements—R. E. Davis, W. C. Hanna, and E. H. Brown.	131
Studies of Some Method of Avoiding Expansion and Pattern Cracking Associated with the Alkali-Aggregate Reaction—W. C. Lerch.	153
Studies of Use of Pozzolans for Counteracting Excessive Concrete Expansion Resulting from Reaction Between Aggregates and Alkalies in Cement—T. E. Stanton	178
Discussion	202

THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations co-operating. A list of A.S.T.M. publications and information on the work of the Society will be gladly furnished on request.
