Activities Available for Spouse Program at the Hilton Head Zirconium Symposium in South Carolina, May 2016

Several activities are available for spouses in the Hilton Head area. Brochures are available for each activity describing the activity and the associated participant costs. Since there is no corporate sponsor for the spouse program, each participant will have to bear the cost. In most cases, it is expected that the cost will depend on the number of participants. We will have a signup sheet (with information brochures) at the symposium registration desk (Sunday afternoon and Monday until noon) to determine participant interest. After collection of this information, a team of volunteer spouses will try to organize appropriate group activities for Tuesday, Wednesday and Thursday.

1. Since this is the first zirconium symposium right on the Atlantic Ocean beach with smooth compact sand, walking on the beach with pleasant breeze and music of sea water waves crashing on the shore would be an enjoyable experience, either as an individual or a group activity any time of day, evening or maybe even early night for all ages. Swimming in the Atlantic Ocean is possible in certain areas. Sun tanning is another option. Any of the listed activities can be done on Monday when no group activity is planned.

2. If you wish to ride bicycles along the beach, weekly or daily rentals are possible. You can ride 12 miles of the beach and/or 20 miles of public parkways on the island.

3. If playing golf is your hobby, there are numerous golf courses available in the area.

5. Trolley Tour of Savannah, Georgia: See the sites, hear the history and visit charming city squares of Georgia’s first city.

6. Segway Tour of Savannah.

7. Shopping Tour of Tanger Outlet Stores: Variety of shops is included. Transportation cost to the stores will depend on the number of participants.

8. Fountain Spa and Massages: Participant cost will depend on the type of service.
