advanced in this publication.

Peer Review Policy

Each paper published in this volume was evaluated by three peer reviewers. The authors
addressed all of the reviewers' comments to the satisfaction of both the technical editor(s)
and the ASTM Committee on Publications.

The quality of the papers in this publication reflects not only the obvious efforts of the
authors and the technical editor(s), but also the work of these peer reviewers. The ASTM
Committee on Publications acknowledges with appreciation their dedication and
contribution of time and effort on behalf of ASTM.
Foreword

The papers in this publication, *Asphalt Concrete Mix Design: Development of More Rational Approaches*, were presented at the symposium on Development of More Rational Approaches to Asphalt Concrete Mix Design Procedures held 9 December 1987 in Bal Harbour, Florida. The symposium was sponsored by ASTM Committee D-4 on Road and Paving. William Gartner, Jr., The Asphalt Institute, is editor of this publication.
Contents

Overview 1

The Evolution of Asphalt Concrete Mix Design—WILLIAM H. GOETZ 5

Asphalt-Aggregate Mixtures Analysis System: Philosophy of the Concept—
    HAROLD L. VON QUINTUS, JIM SCHEROCMAN, AND CHUCK HUGHES 15
    Discussion 36

A Comprehensive Asphalt Concrete Mixture Design System—C. L. MONISMITTH,
    F. N. FINN, AND B. A. VALLERGA 39

The Role of Asphalts in Rational Mix Design and Pavement Performance—
    BYRON E. RUTH, MANG TIA, AND KWASI BADU-TWENEBOAH 72

Asphalt Mix Design and the Indirect Test: A New Horizon—GILBERT Y. BALADI
    AND RONALD S. HARICHANDRAN 86

Toward Maximum Performance Mix Design for Each Situation—
    WILLIAM O. YANDELL AND ROBERT B. SMITH 106

Asphalt Concrete Mix Design in the Caribbean—RAYMOND CHARLES 115
