Creative Use of Bearing Steels

Joseph J. C. Hoo, editor

ASTM STP 1195
Foreword

This publication, Creative Use of Bearing Steels, contains papers presented at the symposium of the same name, held in San Diego, CA on 6–8 November 1991. The symposium was sponsored by ASTM Committee A-1 on Steel, Stainless Steel and Related Alloys and its Subcommittee A01.28 on Bearing Steels. Joseph J. C. Hoo, General Bearing Corporation, Blauvelt, NY, presided as symposium chairman and is editor of the resulting publication.
