WATER POLLUTION ASSESSMENT: AUTOMATIC SAMPLING AND MEASUREMENT

ASTM SPECIAL TECHNICAL PUBLICATION 582
D. G. Ballinger, symposium co-chairman
M. W. Skougstad, symposium co-chairman

List price $6.50
04-582000-16
NOTE

The Society is not responsible, as a body, for the statements and opinions advanced in this publication.

$16.25, 04-528000-16

A Note of Appreciation
to Reviewers

This publication is made possible by the authors and, also, the unheralded efforts of the reviewers. This body of technical experts whose dedication, sacrifice of time and effort, and collective wisdom in reviewing the papers must be acknowledged. The quality level of ASTM publications is a direct function of their respected opinions. On behalf of ASTM we acknowledge with appreciation their contribution.

Contents

Introduction 1

Performance of Portable Automatic Wastewater Composite Sample Collectors—W. J. KEFFER 2
Compositor Inventory 3
Incidence of Compositor Malfunction 3
Installation of Sampling Equipment 6
Discussion 13
Conclusions 16

An Assessment of Automatic Sewer Flow Samplers—P. E. SHELLEY AND G. A. KIRKPATRICK 19
General Flow Characteristics 20
Purpose and Requirements for a Sampling Program 23
Desirable Equipment Characteristics 26
Commercially Available Automatic Sampling Equipment 28
Field Experience with Samplers in Storm and Combined Sewers 31
State-of-the Art Assessment 32

An Automated Remote Marshland Water Sampling Station—D. F. THOMAS, JR. 37
Design Considerations 37
Prototype Sampling Station 39
Test Program 41
Operational Procedures 46
Discussion 46
Concluding Remarks 47

Industrial Experience with On-Line Instrumentation for Water Pollution Monitoring—J. W. SUGAR AND J. H. BRUBAKER 52
Discussion 53
Cooling Water 53
Process Water Sewers 61
Terminal Waste Treatment Plants 66
Influent to Primary Treatment 66
Primary Treatment 66
Secondary Treatment 69
Conclusions 71

Monitoring of Wastewater Discharges Aboard Navy Ships—ANDRES TALTS AND WILLIAM VAN HEES 73
Background 73
Wastewater Survey 75
Flow Monitoring 78
Sample Collection 82
Laboratory Analysis 85
Data Management 87
Conclusions 88
Continuous Liquid-Liquid Extraction of Organic Pesticides from Aqueous Solutions—C. Wu and I. H. Suffet 90
Liquid-Liquid Extraction Process 93
Continuous Liquid-Liquid Extraction 93
Organic Pesticides Analyses by LLE 98
Method of Approach 98
Experimental 100
Results 103
Discussion 106

A Monitor for the Continuous Measurement of Suspended Solids in Liquids—J. W. Liskowitz and A. St. C. Richardson 108
Developmental Monitor 109
Design of Developmental Instrument 110
Experimental Results 115
Discussion 115
Conclusions 117
Present Status of Development 118
