Foreword

The papers in this publication, *Aquatic Toxicology and Hazard Assessment: Sixth Symposium*, are taken from the sixth in a series of annual symposia on Aquatic Toxicology sponsored by ASTM. This sixth symposium, held 13–14 Oct. 1981 in St. Louis, Mo., was sponsored by ASTM Committee E-47 on Biological Effects and Environmental Fate. The five previous symposia in this series were sponsored by ASTM Committee E-35 on Pesticides.

Chairing the symposium were William E. Bishop, Procter & Gamble Co., Rick D. Cardwell, Envirosphere Co., and Barbara Bufe Heidolph, Monsanto Chemical Co., all of whom also served as editors of this publication.
