

Geotechnical Testing Journal

Contents:

- 707 A New True Triaxial Apparatus for Finite Deformation with a Novel Rigid–Flexible Loading Device**—Wen-Bo Xie, Guan-Lin Ye, Qi Zhang, Jin-Jian Chen, and Feng Zhang
- 725 A Shear Device with Controlled Boundary Conditions for Very Large Nonplanar Rock Discontinuities**—Michael Jeffery, Mason Crumpton, Stephen G. Fityus, Jinsong Huang, Anna Giacomini, and Olivier Buzzi
- 753 Cemented Paste Backfill Hydraulic Conductivity Evolution from 30 Minutes to 1 Week**—Mohammad Shahsavari, Mohammadamin Jafari, and Murray Grubinsky
- 778 Compressibility-Based Interpretation of Cone Penetrometer Calibration Chamber Tests and Corresponding Boundary Effects**—Joseph A. Gamez and Scott M. Olson
- 797 Determining Soil Plasticity Utilizing Manafi Method and Apparatus**—Masoud S. G. Manafi, An Deng, Abbas Taheri, Mark B. Jaksa, and Nagaraj HB
- 819 Evaluation of the Penetration Behavior of Viscous Fluids into Porous Media in the Context of Volume Determination**—Florian Christ, Wolfgang Lieske, Charlotte Herz, and Torsten Wichtmann
- 837 Optimization of Laboratory Molding Techniques for Nordic Dry Deep Mixing**—Solve Hov, Fredrik Falle, and Priscilla Paniagua
- 855 Residual Strength of Liquefied Soil: The Effect of Induced Partial Saturation**—Ian D. Gates and Majid Ghayoomi

TECHNICAL NOTES

- 877 Fine-Grained Sediment Characterization and Process Monitoring Using Nuclear Magnetic Resonance (NMR)**—B. Zhao and J. C. Santamarina
- 891 The Hydraulic Properties of Aquabeads Considering Forchheimer Flow and Local Heterogeneity**—Guanxi Yan, Ye Ma, Alexander Scheuermann, and Ling Li

EDITORIAL OBJECTIVES

The *Geotechnical Testing Journal* is published in six issues per year by ASTM International, a nonprofit technical organization that develops and publishes voluntary consensus standards and related information for materials, products, systems, and services. Some issues, in whole or in part, may be Special Issues focused on a topic of interest to our readers. Contributions are peer reviewed prior to publication.

PURPOSE AND SCOPE

The purpose of the *Geotechnical Testing Journal* is (1) to provide a high-quality publication that informs the profession of new developments in soil and rock testing and related fields; (2) to provide a forum for the exchange of information, particularly that which leads to the development of new test procedures; and (3) to stimulate active participation of the profession in the work of ASTM International Committee D18 on Soil and Rock and related committees.

Contributions include papers, technical notes, letters to the editor, discussions of previously published papers, and book reviews. The editorial scope of

this journal covers test methods for soil and rock, sampling, nomenclature, and practices relating to the determination of properties and behavior of soil and rock for engineering purposes, and for soil as a medium for plant growth. Topics of interest include: new testing equipment, apparatus, and procedures for both field and laboratory applications; evaluation of existing ASTM International standards and recommendations for new standards for apparatus or test procedures; and test results that give insights into test procedures, techniques, and data interpretation. Topics must be related to soil and rock, but may include use and testing of geosynthetic materials in conjunction with soil and rock, highway materials testing such as aggregate properties or pavement performance measurement, geophysical exploration, marine sediments, groundwater investigations, testing and stabilization of contaminated soils and soil and rock engineering related to waste management.

EDITORIAL BOARD

Dr. David W. Airey
University of Sydney, Australia

INFORMATION FOR AUTHORS

For details regarding paper submission go to <http://mc04.manuscriptcentral.com/astm-gtj>. The subject matter must not be of a speculative nature and the contents must not include materials of an advertising nature. The paper must not be seriously defective as to literary form and structure, continuity of thought, and clarity of expression. The substance of the paper should not have been published previously in the open literature.

Authors preparing papers for submittal should observe the conventions of style explained in the ASTM Style Manual. Since the journal does not request page charges, the author is expected to conform to these standard conventions for style and the inclusion of complete references and high-quality figures. SI units are to be used throughout; if data were not measured in SI units, a note should appear to that effect and the original units should be included in parentheses after the SI units.

IN APPRECIATION OF THE REVIEWERS

The high quality of the papers that appear in this publication is a tribute not only to the obvious efforts of the authors represented but to the unheralded, though essential, efforts of their reviewers. It is to the reviewers' dedication to upholding the high standards of their profession that this note pays tribute. On behalf of ASTM International and the authors as well, we acknowledge with appreciation their important contribution to the success of this journal.

AWARDS FOR PAPERS

Papers are eligible for the following ASTM International awards:

- The C.A. Hogentogler Award — papers on soils for engineering purposes.
- The Sanford E. Thompson Award — papers on concrete and concrete aggregates.
- The Richard L. Templin Award — papers on new and useful testing procedures and apparatus.
- The *Geotechnical Testing Journal* Award — papers on the practice of geotechnical testing.

PAST TECHNICAL EDITORS

Dr. Ernest T. Selig
(March 1978 to September 1985)

Dr. Vincent P. Drnevich
(December 1985 to December 1989)

Mr. Paul Knodel
(March 1990 to December 1992)

Dr. Howard J. Pincus
(March 1993 to December 1995)

Dr. Ronald C. Chaney
and Dr. Kenneth R. Demars
(March 1996 to June 2002)

Dr. Thomas C. Sheahan
(July 2002 to December 2008)

Mr. L. David Suits
(September 2002 to December 2017)

Geotechnical Testing Journal

(Print ISSN 0149-6115; E-ISSN 1945-7545) is published in six issues per year by ASTM International. Some issues, in whole or in part, may be Special Issues focused on a topic of interest to our readers. The views expressed in this journal are not those of ASTM International. The data and opinions appearing in the published material were prepared by and are the responsibility of the contributors, not of ASTM International.
