

## TECHNICAL EDITOR

Dr. Howard J. Pincus  
P.O. Box 27598  
San Diego, CA 92198-1598  
Tel/Fax 619-487-8466  
Express Mail: 17523 Plaza Marlena  
San Diego, CA 92128-1807

## Purpose and Scope

The purpose of the *Geotechnical Testing Journal* is (1) to provide a high-quality publication that informs the profession of new developments in soil and rock testing and related fields; (2) to provide a forum for the exchange of information, particularly that which leads to the development of new test procedures; and (3) to stimulate active participation of the profession in the work of ASTM Committee D-18 on Soil and Rock and related committees. Contributions include papers, technical notes, letters to the editor, discussions of previously published papers, and book reviews. The editorial scope of this journal covers test methods for soil and rock, sampling, nomenclature, and practices relating to the determination of properties and behavior of soil and rock for engineering purposes, and for soil as a medium for plant growth. Topics of interest include: new testing equipment, apparatus, and procedures for both field and laboratory applications; evaluation of existing ASTM standards and recommendations for new standards for apparatus or test procedures; and test results that give insights into test procedures, techniques, and data interpretation. Topics must be related to soil and rock, but may include use and testing of geosynthetic materials in conjunction with soil and rock, highway materials testing such as aggregate properties or pavement performance measurement, geophysical exploration, marine sediments, groundwater investigations, testing and stabilization of contaminated soils, and soil and rock engineering related to waste management.

## EDITORIAL BOARD

Dr. Gilbert Y. Baladi, D-4 News Editor  
Dept. of Civil Engineering  
Michigan State University  
East Lansing, MI 48824-1212

Dr. Gualtiero Baldi  
I.S.M.E.S.  
Viale Giulio Cesare 29  
24100 Bergamo, Italy

**Geotechnical Testing Journal** (ISSN 0149-6115) is published quarterly by ASTM as part of the Testing and Evaluation Series, which includes the **Journal of Testing and Evaluation** (published bimonthly), **Journal of Composites Technology & Research** (published quarterly), and **Cement, Concrete, and Aggregates** (published semiannually).

Copyright © 1993 AMERICAN SOCIETY FOR TESTING AND MATERIALS, Philadelphia, PA. All rights reserved. This material may not be reproduced or copied, in whole or in part, in any printed, mechanical, electronic, film, or other distribution and storage media, without the written consent of the publisher.

**Subscriptions:** United States and Canada for 1 year \$89.00 (members \$80.00), for 2 years \$151.00 (members \$136.00), for 3 years \$200.00 (members \$180.00). Foreign for 1 year \$98.00 (members \$88.00), for 2 years \$166.00 (members \$149.00), for 3 years \$220.00 (members \$198.00). Single copies are \$35.00. To subscribe, please send prepaid order to ASTM, Customer Service, 1916 Race St., Philadelphia, PA 19103. The **Geotechnical Testing Journal** is indexed regularly by Engineering Information, Inc., and is available on microfilm from University Microfilms, a Xerox company, Ann Arbor, MI.

**Photocopy Rights:** Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by the AMERICAN SOCIETY FOR TESTING AND MATERIALS for users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of \$2.50 per copy, plus \$0.50 per page is paid directly to CCC, 27 Congress St., Salem, MA 01970; Tel (508) 744-3350. For those organizations that have been granted a photocopy license by CCC, a separate system of payment has been arranged. The fee code for users of the Transactional Reporting Service is 0149-6115/ISSN 0149-6115/93-91 \$2.50 + .50.

**Change of Address:** Please return entire addressing label on wrapper to ASTM, Journal Subscriptions Dept.—GTF, 1916 Race St., Philadelphia, PA 19103. Printed in the U.S.A.

	Roger E. Stoller
	Mona B. Wolf

## Information for Authors

Contributions to the *Geotechnical Testing Journal* are subject to peer review, in accordance with the policy established by the ASTM Committee on Publications. The paper must either contribute to the permanent literature or be of immediate interest to ASTM membership. The subject matter must not be of a speculative nature and the contents must not include materials of an advertising nature. The paper must not be seriously defective as to literary form and structure, continuity of thought, and clarity of expression. The substance of the paper should not have been published previously in the open literature.

Authors preparing papers for submittal should observe the conventions of style explained in the ASTM Style Manual. Since the journal does not request page charges, the author is expected to conform to these standard conventions for style. SI units are to be used throughout; if data were not measured in SI units, a note should appear to that effect and the original units should be included in parentheses after the SI units. Key words should be chosen in accordance with the latest edition of ASTM D 3584. Recommended Practice for Indexing Papers and Reports on Soil and Rock for Engineering Purposes.

The original manuscript and four clear copies, including the original illustrations, should be submitted to Kathy Dernoga, Manager, Acquisition and Review, ASTM, 1916 Race St., Philadelphia, PA 19103. Papers are eligible for the following ASTM awards: the C. A. Hogentogler Award (papers on soils for engineering purposes), the Sanford E. Thompson Award (papers on concrete and concrete aggregates), and the Richard L. Templin Award (papers on new and useful testing procedures and apparatus).

## General

This publication is one of many issued by ASTM in connection with its work in promoting knowledge of the properties and performance of materials, products, systems, and services, as well as in developing standard specifications and test measurement techniques to establish their value. Much of the information results from the voluntary contributions of many of the country's leading technical authorities from industry, scientific agencies, and government. A list of publications and information on the work of ASTM will be furnished on request.

## In Appreciation

The high quality of the papers that appear in this publication is a tribute not only to the obvious efforts of the authors represented but to the unheralded, though essential, efforts of their reviewers. It is to the reviewers' dedication to upholding the high standards of their profession that this note pays tribute. On behalf of ASTM and the authors as well, we acknowledge with appreciation their important contribution to the success of this journal.
