

Composites Technology Review

Index to Volume 3

1981

Number	Issue	Pages
1	Spring	1-52
2	Summer	53-92
3	Fall	93-128
4	Winter	129-176

A-B

- Ackley, R. H.:** Interesting new product, Spring, 3
- Alper, J. M. and Wang, S. D.:** Compressive strength of a unidirectional graphite/epoxy composite following a tensile proof-load, Winter, 156
- Aramid/epoxy composites:** Effect of vacuum and temperature on the mechanical properties of an aramid/epoxy composite (Chin and Hahn), Spring, 27
- Adhesives:** Loading rate and environmental effects study of adhesive bonded sheet molding compound joints (Wang, Sanders, and Lindholm), Winter, 138
- Automobiles:** Loading rate and environmental effects study of adhesive bonded sheet molding compound joints (Wang, Sanders, and Lindholm), Winter, 138
- Bend test:** Equations for estimating the bending modulus of elasticity of rigid plastics by extrapolation (Kuroda), Summer, 58
- Book reviews:** *Analysis and Performance of Fiber Composites* by Agarwal and Broutman (Reifsnider), Spring, 37
- Buckling:** Experimental evaluation of column compression properties of graphite/epoxy composites (Sandorff, Ryder, and Lauraitis), Spring, 6
- Butcher, D. N.:** New structural design for the F-16 horizontal stabilizer, Summer, 54
- Long-term behavior in composites,** Summer, 90
- Producibility and quality assurance of composite materials,** Spring, 49
- Program for the sixth conference on composite materials: testing and design,** Spring, 49
- Third Risø international symposium on metallurgy and materials science: fatigue and creep of composite materials,** Winter, 165
- 27th national SAMPE symposium/exhibition,** Summer, 90
- Chamis, C. C.:** Summary of ASTM symposium on test methods and design allowables for fibrous composites, Spring, 38
- Chiao, T. T.**
New publication from PLASTEC, Spring, 4
Outdoor weathering of an aramid/epoxy specimen, Spring, 4
Review of *Technology of Carbon and Graphite Fiber Composites* by Delmonte, Fall, 122
1980 technology conference innovation award, Spring, 5
- Chin, W. K.:** see Hahn, H. T. and Chin, W. K.
- Christensen, R. M.:** Review of *Mechanics of Fibre Composites* by Tewary, Fall, 122
- Composite materials:** Tensile fatigue performance of glass fiber dominated composites (Mandell, Huang, and McGarry), Fall, 96
- Composites review**
Absorbed moisture and stress-wave propagation in graphite/epoxy (Kriz), Winter, 154
Composite materials education in the United States (Jones), Fall, 118
Compressive strength of a unidirectional graphite/epoxy composite following a tensile proof-load (Alper and Wang), Winter, 156
Effect of a resin interlayer on composites with free edges (Evans and Salamon), Winter, 148
Effect of lamination-induced stresses on fatigue damage development at internal flaws (Reifsnider), Spring, 17
Effect of stress nonuniformity and size on the strength of composite materials (Zweben), Spring, 23
Effect of vacuum and temperature on the mechanical properties of an aramid/epoxy composite (Chin and Hahn), Spring, 27
Elastic constants of mat-reinforced laminates (Neiderstadt and Geier), Spring, 21
- Engineering properties of a filament-wound Kevlar 49/epoxy composite (Hahn and Chin),** Summer, 80
- Evaluation of metal ribbon reinforced/resin matrix composites (Strife and Prewo),** Summer, 76
- Generalized stress-strain relations of laminated composite materials (Tsai),** Fall, 105
- Graphite-fiber-reinforced glass for spacecraft applications (Prewo),** Winter, 152
- Improvement of the first-ply-failure strength in laminates by using softening strips (Sun and Voit),** Fall, 109
- Relation between physical structure and failure processes of Kevlar 49 fibers (Pruneda, Steele, Kershaw, and Morgan),** Fall, 103
- Results of the ASTM round-robin on the rail shear test for composites (Lockwood),** Summer, 83
- Warping of unsymmetric cross-ply graphite/epoxy laminates (Hahn),** Fall, 114
- Compressing:** Experimental evaluation of column compression properties of graphite/epoxy composites (Sandorff, Ryder, and Lauraitis), Spring, 6
- Compressive properties:** Compressive failure of graphite/epoxy plates with circular holes (Knauss and Henneke), Summer, 64
- Conference reports**
Abstracts of symposium on composites for extreme environments, Spring, 41
Abstracts of symposium on damage in composite materials: basic mechanics, accumulation, tolerance, and characterization, Spring, 44
Fatigue 81: Materials experimentation and design (Reifsnider), Summer, 89
Japan-US conference on composite materials: mechanics, mechanical properties, and fabrication (Reifsnider), Summer, 88
Nondestructive and analytical evaluation of criticality of defects in structural composite laminates (Sendekyj), Summer, 87
SESA spring meeting (Daniel), Winter, 163
Summary of ASTM symposium on test methods and design allowables for fibrous composites, Spring, 38
Summary of sixth ASTM conference on testing and design of composite materials (Daniel), Winter, 163
Workshop on nondestructive evaluation of composite materials (Sendekyj), Spring, 48
2nd US-USSR symposium on fracture of

C

Call for papers

- Biaxial/multiaxial fatigue, Summer, 90
- Composites Technology Review*, Spring, 49
- Compression testing of homogeneous materials and composites, Spring, 49
- 14th national SAMPE technical conference, Winter, 165
- Fourth international conference on composite materials, Winter, 165
- International symposium on adhesive joints: their formation, characteristics, and testing, Winter, 165
- Joining in fiber-reinforced plastics, Summer, 90
