

Journal of Testing and Evaluation

A Multidisciplinary Forum
for Applied Sciences and Engineering

Editorial Objectives

The **Journal of Testing and Evaluation** is published bimonthly by ASTM, a nonprofit technical organization that develops and publishes voluntary consensus standards and related information for materials, products, systems, and services.

Contributions are peer reviewed prior to publication.

The editorial objectives of this journal are to serve a broad-based audience by

1. Publishing new technical information derived from the field and laboratory testing, performance, quantitative characterization, and evaluation of these materials, products, systems, and services.
2. Presenting new methods and data and critical evaluations of these methods and data.
3. Reporting the users' experience with test methods and the results of interlaboratory testing and analysis.
4. Providing the scientific basis for both new and improved ASTM standards.
5. Stimulating new ideas in the fields of testing and evaluation.

Information for Authors

The **Journal of Testing and Evaluation** publishes original articles of the following types.

Full-Length Papers (3000–5000 words)

- Reports of **Original Investigations** (research and field applications papers)
- Review **Articles** (state-of-the-art or literature reviews)
- Interlaboratory Research Reports (including data and statistical analysis)
- New **Procedures** (currently under development by a committee or authored by an individual)
- Case **Studies** (reports and analyses of noteworthy events or situations)

Shorter Technical Communications (500–1500 words)

- Technical **Notes** (brief papers on specific topics)
- Research **Briefs** (advance communications that will be followed by full-length papers)
- Conference **Reports** (extended abstracts)

Commentary (500–1000 words)

- Discussions of **Previously Published Papers**
- Letters to the **Editor**
- Invited **Editorials**
- Reviews of **Books** and **Standards**

The subject **matter** must not be of a speculative nature and the **contents** must not include materials of an advertising nature. The paper must not be seriously defective as to **literary** form and structure, continuity of thought, and **clarity** of expression. The substance of the paper should **not** have been published previously in the open literature.

Authors **preparing** papers for submittal should observe the **conventions** of style explained in the ASTM Style Manual. **Since** the journal does not request page charges, the **author** is expected to conform to these standard **conventions** for style. SI units are to be used throughout. **if data** were not measured in SI units, a note should **appear** to that effect and the original units should be **included** in parentheses after the SI units.

The original manuscript and four clear copies, including original **illustrations**, should be submitted to Kathy Dernoga, **Manager, Acquisitions and Review**, ASTM, 100 **Barr Harbor Drive**, West Conshohocken, PA 19428–2959.
