**Authorization to photocopy items for internal, personal, or educational classroom use, or the internal, personal, or educational classroom use of specific clients, is granted by the American Society for Testing and Materials (ASTM) provided that the appropriate fee is paid to the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923; Tel: 978-750-8400; online: <http://www.copyright.com/>.**

### **Peer Review Policy**

Each paper published in this volume was evaluated by two peer reviewers and at least one editor. The authors addressed all of the reviewers' comments to the satisfaction of both the technical editor(s) and the ASTM Committee on Publications.

To make technical information available as quickly as possible, the peer-reviewed papers in this publication were prepared "camera-ready" as submitted by the authors.

The quality of the papers in this publication reflects not only the obvious efforts of the authors and the technical editor(s), but also the work of the peer reviewers. In keeping with longstanding publication practices, ASTM maintains the anonymity of the peer reviewers. The ASTM Committee on Publications acknowledges with appreciation their dedication and contribution of time and effort on behalf of ASTM.

# Foreword

This publication, *Aggregate Contribution to Hot Mix Asphalt (HMA) Performance*, contains papers presented at the symposium of the same name held in Orlando, Florida, on December 5, 2000. The symposium was sponsored by ASTM Committee D04 on Road and Paving Materials. The symposium co-chairmen were Thomas D. White, Mississippi State University, Mississippi State, Mississippi, USA, Sam R. Johnson, Martin Marietta Aggregates, Raleigh, North Carolina, USA, and John J. Yzenas, Levy Co., Portage, Indiana, USA.
