

INDEX

A

- Activation parameters (for rock salt), 72
 Anisotropy, dynamic properties of rock at elevated temperature/pressure, 93

B

- Block test, 128
 Board, Mark P., 128-147
 Brace, William F., 3-23
 Brodsky, Nancy S., 37-54
 Buskirk, Richard V., 108-127

C

- Calibration, 108
 Christensen, Nikolas I., 93-107
 Compression testing, 3, 24, 37
 Confining pressure
 effect on volume compressibility of consolidated sandstones, 24
 Consolidated sandstone (*see* sandstone)
 Constitutive law for salt, 55
 Creep rates (for rock salt), 72

D

- Deformation
 at elevated temperature/pressure, 37
 of rock salt constitutive law, 55

E

- Elastic moduli of rock, 93
 Elevated stress (*see* stress effects)
 Enniss, Dan, 108-127

F

- Field testing (flatjack test), 128
 Fracture mechanics, 3, 37
 Fused quartz calibration, 108

G

- Geothermal energy sites, 108
 Getting, Ivan C., 37-54
 Granite, Westerly, 3, 37

H

- Haraden, John L., 24-36
 Hardin, Earl L., 128-147
 Hassler sleeve, 4
 Heated block test, 128
 Hoek triaxial cell, 6
 Hoskins, Earl R., editor, 154

I

- in situ* testing,
 simulation thermal testing, 108
 thermomechanical/transport properties, 128

- | L | S |
|---|--|
| Longitudinal velocity of rock, 93 | Sandstone
effect of pore pressure on volume compressibility, 24 |
| P | |
| Palo Duro basin, 61 | Schatz, J., 108 |
| Permeability, 3 | Senseny, Paul E., 55-71 |
| Pincus, Howard J., editor, 1 | Shear velocity of rock, 93 |
| Pore dimensions | Site characterization (<i>see</i> in situ testing) |
| effect on permeability, 3 | Somerton, Wilbur H., 24-36 |
| effect on pore/bulk volume compressibility of consolidated sandstones, 24 | Spetzler, Hartmut, 37-54 |
| Pratt, Howard R., 128-147 | Steady-state creep on rock salt, 72 |
| Pressure effects | Strain rate, 37
constitutive law for, 55 |
| dynamic properties of rock, 93 | Stress effects
deformation of rock salt constitutive law, 55 |
| on permeability of rock, 17 | permeability at elevated stresses/temperatures, 12 |
| on rock deformation, 37 | rock deformation, 37 |
| thermal conductivity/expansion, 108 | steady state creep/activation parameters of rock salt, 72 |
| on volume compressibility of consolidated sandstones, 24 | thermomechanical/transport properties, 128 |
| R | |
| Rock properties | T |
| constitutive law for rock salt, 55 | Temperature effects
dynamic properties of rock, 93 |
| deformation at elevated temperature/pressure, 37 | on permeability of rock, 17 |
| dynamic properties of rock at elevated temperature/pressure, 93 | on rock deformation, 37 |
| permeability at elevated stresses/temperatures, 3 | on rock salt constitutive law, 55 |
| steady-state creep/activation parameters for rock salt, 72 | on rock salt steady state creep/activation parameters, 72 |
| thermal conductivity, 108 | Thermal conductivity/expansion, 108 |
| thermomechanical/transport properties, 128 | Thermal cracking, 10, 37 |
| Rock salt | Thermomechanical/transport properties, 128 |
| constitutive law, 55 | Transient technique, 108 |
| steady-state creep/activation parameters, 72 | Triaxial compression, 5, 37
constitutive law for, 55 |

V

Velocity-dynamic properties of rock,
93

Voegele, Michael D., 3-23, 128-147

W

Water-rock reactions, 10

Wawersik, Wolfgang R., 72

Westerly granite (*see granite*)

Z

Zimmerman, Robert W., 24-36
