#### NOTE

The Society is not responsible, as a body,  
for the statements and opinions  
advanced in this publication.

#### Peer Review Policy

Each paper published in this volume was evaluated by three peer reviewers. The authors addressed all of the reviewers' comments to the satisfaction of both the technical editor(s) and the ASTM Committee on Publications.

The quality of the papers in this publication reflects not only the obvious efforts of the authors and the technical editor(s), but also the work of these peer reviewers. The ASTM Committee on Publications acknowledges with appreciation their dedication and contribution of time and effort on behalf of ASTM.

## Foreword

This publication, *Aquatic Toxicology and Environmental Fate: Eleventh Volume*, contains papers presented at the Eleventh Symposium on Aquatic Toxicology and Hazard Assessment, which was held 10–12 May 1987, in Cincinnati, Ohio. This eleventh symposium was part of a series of annual symposia on Aquatic Toxicology sponsored by ASTM, through its Committee E-47 on Biological Effects and Environmental Fate. The chairmen of this symposium were Glenn W. Suter II, Oak Ridge National Laboratory, and Michael A. Lewis, Procter and Gamble Co. Both men also served as editors of this publication.
