FOREWORD

The papers and discussions in this Symposium on Permeability of Soils were presented at the Eleventh and Seventeenth Sessions of the Fifty-seventh Annual Meeting of the Society in Chicago, Ill., on June 15, 1954. The Symposium was under the sponsorship of Subcommittee R-4 on Physical Properties, under the chairmanship of Mr. Edward S. Barber, Civil Engineer, Arlington, Va., of ASTM Committee D-18 on Soils for Engineering Purposes. Mr. A. W. Johnson, Soils and Foundation Engineer, Highway Research Council, Washington, D. C. acted as Chairman for the Eleventh Session; while Mr. Harold Allen, Chief, Nonbituminous Section, Bureau of Public Roads, U. S. Dept. of Commerce, Washington, D. C. presided over the Seventeenth Session.

NOTE.—The Society is not responsible, as a body, for the statements
and opinions advanced in this publication.

CONTENTS

	PAGE
Introduction—Edward S. Barber	1
Principles of Permeability Testing of Soils—Donald M. Burmister	3
Discussion	21
Water Movement Through Porous Hydrophilic Systems Under Capillary, Electric and Thermal Potentials—Hans F. Winterkorn	27
Discussion	36
A Low-Head Permeameter for Testing Granular Materials—E. G. Yemington	37
Permeability Test for Sands—T. Y. Chu, D. T. Davidson, and A. E. Wickstrom	43
The Permeability of Compacted Fine-Grained Soils—T. W. Lambe	56
The Permeability and Settlement of Laboratory Specimens of Sand and Sand-Gravel Mixtures—Chester W. Jones	68
Discussion	79
Measurement of the Hydraulic Conductivity of Soil In Place—Don Kirkham	80
Measurement of Permeabilities in Ground-Water Investigations—W. O. Smith and R. W. Stallman	98
Discussion	115
Determination of Permeability of Granular Soil by Air Subjected to a Decreasing Pressure Differential—Arthur S. Weaver	123
Selected References on Permeability—A. I. Johnson	131

THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations co-operating. A list of A.S.T.M. publications and information on the work of the Society will be furnished on request.
