Yun, D., 244-255

Subject Index

C

component integrity, 160-167
copper, 168-186
crack growth, 209-224
creep, 244-255
cyclic small punch test, 168-186

D

DCPD, 70-87
DC(T), 70-87
digital image correlation, 31-49
dynamic testing, 12-30

F

fatigue damage, 168-186
FATT, 145-159
fracture, 168-186
fracture toughness, 70-87, 88-109
fracture toughness evaluation, 53-69
fracture toughness test, 110-120

H

high dose HT9 steel, 121-142
high temperature testing, 70-87
hot cell facility, 160-167
hysteresis energy, 168-186

I

IFMIF, 209-224
instrumented impact tests, 189-208
international round robin, 189-208
irradiation embrittlement, 88-109

J

J-R curve testing, 70-87

K

KLST, 189-208

L

load-deflection curve, 145-159

M

master curve, 88-109
Master Curve method, 53-69
material testing, 88-109
mechanical testing, 160-167
micro tensile tests, 12-30
miniature CT specimen, 110-120
miniature samples, 31-49
miniature specimen, 1-13
miniaturized Charpy specimens, 189-208

N

nondestructive evaluation, 227-243
nonlinear ultrasound, 227-243
normalization method, 70-87
nuclear reactors, 160-167

O

off-load line deflection, 110-120

P

plant life extension, 160-167
precracking, 121-142
pressurized creep tubes, 244-255

R

radiation damage, 227-243
 radiation effect, 121-142
 reactor pressure vessel, 88-109
 reactor pressure vessel material, 53-69
 reactor pressure vessel steel, 227-243
 reconstitution technique, 88-109
 rotation point, 110-120

S

scale factor, 31-49
 sheet tensile specimens, 3-11
 small punch test, 160-167
 small sample techniques, 12-30
 small sized specimens, 88-109
 small specimen reuse technique, 121-142
 small specimen test techniques, 189-208

small-punch fracture energy E^{SP} , 145-159
 small-punch test, 145-159
 small-scale impact machines, 189-208
 small-size specimen, 209-224
 SS-1, 31-49
 SS-2, 31-49
 SS-3, 31-49
 SS-J3, 31-49
 static fracture testing, 121-142
 statistical analyses, 189-208
 surface finishing, 3-11
 surface roughness, 3-11
 synchrotron radiation, 244-255

T

thermal annealing effect, 121-142
 true curves, 31-49
