FOREWORD

The papers and discussions in this Symposium on Bulk Sampling were presented at the First and Third Sessions of the Fifty-fourth Annual Meeting of the American Society for Testing Materials held in Atlantic City, N. J., June 18, 1951. The Symposium was sponsored by Committee E-11 on Quality Control of Materials, under the direct guidance of Messrs. W. E. Deming and C. A. Bicking of its Task Group No. 7 on Bulk Sampling. The First Session was presided over by Mr. A. E. Brandt, Biometrician, Health and Safety Division, U. S. Atomic Energy Commission, New York, N. Y., and the Third Session by Mr. C. A. Bicking, Research and Development Division, Department of Defense, Office of the Chief of Ordnance, Washington, D. C.

Note.—The Society is not responsible, as a body, for the statements
and opinions advanced in this publication.

CONTENTS

	PAGE
Introduction—W. Edwards Deming	1
Materials Handling for Bulk Sampling—Joseph Manuele	4
Economic Accumulation of Variance Data in Connection with Bulk Sampling— Louis Tanner and Melvin Lerner	8
Two-Stage Acceptance Sampling by Attributes—C. W. [†] Dunnett and J. W. Hopkins	13
Joint Discussion	19
Coal Sampling Problems—A. A. Orning	29
The Analysis of Variance in a Sampling Experiment—W. M. Bertholf	36
The Design of Coal Sampling Procedures—W. M. Bertholf	46
Joint Discussion on Coal Sampling	58

THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations co-operating. A list of A.S.T.M. publications and information on the work of the Society will be furnished on request.
