## Contents

Introduction .....	1
Relationship Between Specific Gravity and Other Fuel Properties and Diesel Engine Performance—K. A. TROTH .....	5
The Effect of Evaporation Cooling in Saddle Fuel Tanks on Diesel Engine Operation—D. P. BARNARD AND R. H. FLEMING .....	25
The Effect of Pour-Point Depressants on Diesel Fuel Performance in Winter—B. L. MICKEL .....	42
Survey of Roadside Diesel Fuel Filterability—W. D. BERTOLETTE AND H. D. MARVEL .....	51
Diesel Power, Economy, and API Gravity—R. P. LINDEMAN, D. K. LAWRENCE, AND T. O. WAGNER .....	74
Cleaner Injectors and Less Smoke with Hydrogen-Treated Diesel Fuel—G. E. IRISH AND E. L. WISEMAN .....	84
Weather Patterns and Diesel Fuel Performance—A. R. RESCORLA .....	99

THIS PUBLICATION is one of many issued by the American Society for Testing and Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Much of the data result from the voluntary contributions of many of the country's leading technical authorities from industry, scientific agencies, and government.

Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the ASTM technical committees, or compilations of data developed in special Society groups with many organizations cooperating. A list of ASTM publications and information on the work of the Society will be furnished on request.
