NOTE

The Society is not responsible, as a body, for the statements and opinions advanced in this publication.

Peer Review Policy

Each paper published in this volume was evaluated by three peer reviewers. The authors addressed all of the reviewers' comments to the satisfaction of both the technical editor(s) and the ASTM Committee on Publications.

The quality of the papers in this publication reflects not only the obvious efforts of the authors and the technical editor(s), but also the work of these peer reviewers. The ASTM Committee on Publications acknowledges with appreciation their dedication and contribution of time and effort on behalf of ASTM.

Printed in Baltimore April 1990

FOREWORD

The symposium on Overall Facility Performance -- Use, Operation and Cost was presented at Toronto, Ontario, Canada, October 13-14, 1988. It was sponsored by ASTM Committee E06 on Performance of Building Constructions and ASTM Subcommittee E06.25 on Whole Buildings and Facilities.

Gerald Davis, Chairman, ASTM Subcommittee E06.25, and President, International Centre for Facilities, Ottawa, Canada, and Seattle, USA, served as chairman of the symposium and co-editor. Francis T. Ventre, Professor and Director, Environmental Systems Laboratory, College of Architecture and Urban Studies, Virginia Polytechnic Institute and State University, served as co-editor. Mary-Anne McKiechan, Principal, McKiechan and Associates, and Françoise Szigeti, Executive Director, International Centre for Facilities, served as technical co-editors.

ACKNOWLEDGEMENTS

Organizing this symposium and assembling this publication have required the combined efforts of many individuals. It is our pleasure to acknowledge here the support we received from ASTM, from its Chairman, DeWayne France, who welcomed our dinner speaker and all present, on to the Executive Committee of Committee E06, who supported our unconventional symposium format, to our Committee Chairman, Fred Pneuman, who welcomed the participants to the symposium. Others at ASTM who should be recognized here include: our former staff manager, Teri McMasters, who got us under way with great enthusiasm and competence, our current staff manager, David R. Bradley, who took over in mid-stream and did a great job in trying circumstances, Dorothy Savini, who also took over the symposium organization in mid-stream and sorted out numerous crises, Kathleen Green and Monica Armata, who supervised the editing process with their usual care, patience and attention to details.

We are grateful to Mr. Dennis P. Caplice, Deputy Minister, Ontario Ministry of Government Services for taking the time to welcome ASTM and the symposium on behalf of the Government of Ontario.

Last but not least, we would like to thank all the speakers and authors without whom there would have been no symposium or publication, and all the reviewers whose thoughtful comments and helpful suggestions ensured the high quality of this publication. Any shortcomings are our responsibility.

Gerald Davis, President
