

## Subject Index

- A**
- Absorption, and evaporation and transpiration, 144, 294
  - Absorption rate, long-term, 63
  - Absorption systems, soil, 11
  - Accumulation rate, 217
  - Ammonium removal, 261
  - Application rate, 54
- B**
- Biotextile filters, 113
  - Buffering, 176
- C**
- Chamber leaching, systems, 248
  - Clay, 294
  - Clogging, 36, 47
  - Coliforms removal, fecal, 235, 261
  - Compaction, 98
  - Computer-aided system design, pressure system design spreadsheet, 88
  - Constant-head well permeameter method, 129
  - Crusts
    - gravel-soil interface, 150
    - transmission rates, 150
    - upper trench, serially loaded filter field, 63
- D**
- Darcy's Law, 161
  - Dipper box, 11
  - Discharge rates, 36, 47
  - Disinfection, wastewater for reuse, 176
  - Distribution box, 11
  - Dosing, pump, 11
  - Drain fields, 23, 161
    - used tires as aggregate substitute, 207
  - Drain field size, 129, 144
  - Drainrock, 207
  - Dye tracer, 3
- E**
- Equipment, septic system inspection, 3
  - Evaporation, 144, 294
- F**
- Fecal coliform removal, 235, 261
  - Field identification, disturbed soils, 98
  - Filter field, 150
    - serially loaded, 63
  - Filters
    - aggregate, 283
    - biotextile, 113
    - multi-media, 176
    - polishing, 113
    - recirculating sand, 88, 191
    - stratified sand, 235
    - Waterloo Biofilter, 261
  - Flow equalization, 11
- G**
- Geodrain materials, 113
  - Glover solution, 129
  - Gravelless domed chambers, 207
  - Gravelless systems, chamber field performance, 248
  - Gravel-soil interface, 150
- H**
- Hazen-Williams equation, 88
  - Head losses, 88
  - Hydraulic conductivity, soil, 23
    - saturated, 129, 161
  - Hydraulic failure, 98
  - Hydraulic performance, serially loaded filter field, 63

## 306 ON-SITE SEPTIC SYSTEMS

Hydraulic stress, 150  
Hydrocarbon removal, 261

### I

Idaho, tire reuse for drainfield  
  aggregate, 207  
Inspection methodology, 36  
  septic system evaluation, 3  
Iron, 207  
Irrigation  
  drip, 294  
  wastewater reuse, 54

### L

Laterals, 47, 88  
Laundry detergents, sodium,  
  effect on wastewater, 23  
Leaching system, 248  
Loading and aeration,  
  simultaneous, 261  
Loading, hydraulic, 113  
Loading rate, 63, 129, 150, 161

### M

Maintenance  
  pressurized distribution  
    systems, 36, 47  
  surface irrigation system, 54  
Maryland Regulation, Code of,  
  distribution system, 36  
Massachusetts Regulations, Code  
  of, soil evaluator program,  
    75  
Metals release, 207  
Minnesota Pollution Control  
  Agency, inspection manual,  
    3  
Minnesota regulations, individual  
  sewage treatment systems,  
    98  
Modelling, hydraulic  
  conductivity, 129  
Modular recirculating sand  
  filter, 191  
Mounding analysis, 161  
Mounds, Wisconsin, 88

### N

Nitrogen, 235, 283  
  removal, 113, 261

### O

Orifice, 36, 47  
  discharge formula, 88

### P

Percolation rate, 129, 283, 294  
Permeameter method,  
  constant-head well, 129  
Phosphorus, 235  
Pipe flow, 54  
Piping blockage, serially loaded  
  filter field, 63  
Piping, discharge, 11  
Plant transpiration, 144  
Porosity, disturbed soils, 98  
Pressure distribution, 36, 47, 88  
Pressure system design  
  spreadsheet, 88  
Pump capability, 88  
Pump cycle timer/counter, for  
  distribution system  
  maintenance, 47  
Pumping interval, 217  
Pump, recirculating, 113

### R

Recordkeeping, septic inspection  
  manual, 3  
Retention time, 217  
Reuse systems, 54, 176  
  recirculating sand filters, 191  
Runoff, 54

### S

Sand filters  
  recirculating, 88, 191  
  stratified, 235  
Site evaluation, 75  
  for surface wastewater  
    irrigation, 54  
Sodium detergents, effects on  
  wastewater, 23  
Soil absorption trenches, 11, 47

Soil, disturbed, 98, 283  
 Soil evaluator training and  
     examination, 75  
 Soil hydraulic conductivity, 23  
     saturated, 129, 161  
 Soil imitations, 75  
 Soil investigation, for surface  
     wastewater irrigation, 54  
 Soil mottling, 283  
 Soils, fill, 98  
 Spray surface irrigation, 54  
 Structural adequacy, 217  
 Surface irrigation, 54

## T

Tires, used, 207  
 Training, soil evaluators, 75  
 Transpiration, 144, 294  
 Treatment, water, 176

## U

Ultraviolet disinfection, 176  
 U.S.D.A. Natural Resources  
     Conservation Service, 75

## V

Vadose zone, 129, 161  
 Volatile organic chemicals, 261

## W

Waterloo Biofilter, 261  
 Watertightness, 217  
 Wetlands, constructed, 283  
 Wisconsin mounds, 88

## Z

Zinc, 207
