advanced in this publication.

Peer Review Policy

Each paper published in this volume was evaluated by three peer reviewers. The authors addressed all of the reviewers' comments to the satisfaction of both the technical editor(s) and the ASTM Committee on Publications.

The quality of the papers in this publication reflects not only the obvious efforts of the authors and the technical editor(s), but also the work of these peer reviewers. The ASTM Committee on Publications acknowledges with appreciation their dedication and contribution of time and effort on behalf of ASTM.

Foreword

The Symposium on High-Temperature, High-Shear (HTHS) Oil Viscosity: Measurement and Relationship to Engine Operation was presented at Anaheim, CA, on 6 Dec. 1988. ASTM Committee D-2 on Petroleum Products and Lubricants sponsored the symposium. Marvin F. Smith, Jr., Exxon Chemical Company, served as chairman of the symposium. James A. Spearot served as symposium organizer and editor of the resulting publication.

Contents

Overview—Z. M. HOLUBEC	1
History of ASTM Involvement in High-Temperature, High-Shear Oil Viscosity Research—MARVIN F. SMITH, JR.	3
Development of ASTM Standard Test Methods for Measuring Engine Oil Viscosity Using Rotational Viscometers at High-Temperature and High-Shear Rates—R. B. RHODES	14
Development of an ASTM Standard Test Method for Measuring Engine Oil Viscosity Using Capillary Viscometers at High-Temperature and High-Shear Rates—JOHN M. DEMKO	23
Co-ordinating European Council (CEC) Contribution to the Measurement of High-Temperature, High-Shear-Rate Viscosity and Its Relationship to Engine Operation—MICHAEL A. VICKARS AND TERENCE W. BATES	34
Relating High-Temperature, High-Shear-Rate Viscosity to Engine Operation—JAMES A. SPEAROT	43
Change of High-Shear-Rate Viscosity of Engine Oils During Use: A Review—DAVID L. ALEXANDER	60
Relating High-Temperature, High-Shear Viscosity to Bearing Oil Film Thickness Measurements—SERGE A. CRYVOFF AND ASOKE K. DEYSARKAR	74
The Future of a High-Temperature, High-Shear Engine Oil Viscosity Classification in SAE J300—ROBERT L. STAMBAUGH	91
Open Forum	102
