FOREWORD

The problem of measuring the skid resistance of road surfaces and relating laboratory and field testing techniques is highlighted in this symposium sponsored by ASTM Committee E-17 on Skid Resistance. All the papers, with the exception of the contribution from D. H. F. Obertop, were presented on June 29, 1962, during the Symposium on Skid Resistance at the Sixty-fifth Annual Meeting of the Society held in New York, N. Y.

W. H. Goetz, of Purdue University, served as Symposium Chairman. The presiding officers at the session were Mr. Goetz and K. B. Woods, Purdue University.

NOTE.—The Society is not responsible, as a body, for the statements
and opinions advanced in this publication.

CONTENTS

	PAGE
Introduction—W. H. Goetz.....	1
Measurement of Skid Resistance—H. W. Kummer and W. E. Meyer.....	3
The Minimization of Variables in Equipment and Techniques for Performing Skid Trailer Tests—W. A. Goodwin and E. A. Whitehurst.....	29
Friction Properties of Pavements at Different Speeds—K.-H. Schulze and L. Beck- mann.....	42
Development and Performance of the Portable Skid-Resistance Tester—C. G. Giles, B. E. Sabey, and K. H. F. Cardew.....	50
Variation in Highway Slipperiness Characteristics with Location—D. C. Mahone..	75
Decrease of Skid-Resisting Properties of Wet Road Surfaces at High Speeds—D. H. F. Obertop.....	102
General Discussion—H. W. Kummer.....	113

THIS PUBLICATION is one of many issued by the American Society for Testing and Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Much of the data result from the voluntary contributions of many of the country's leading technical authorities from industry, scientific agencies, and government.

Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the ASTM technical committees, or compilations of data developed in special Society groups with many organizations cooperating. A list of ASTM publications and information on the work of the Society will be furnished on request.
