CONTENTS		Page
SOME BASIC CONCEPTS		
Introduction		1
Differences Between Document Retrieval and Data Retrieval		2
Basic Components of a Data System		3
Features of the Ideal Data Storage and Retrieval System		6
Arrangement of the Store and Index		9
RETRIEVAL EQUIPMENT		13
Introduction		13
Tabular Indexes		13
Uniterm Cards and Dual Dictionaries		15
Edge-Notched Cards		19
Optical Coincidence Card Systems		22
Punched Cards		26
Computers		30
Computer Input		30
Computer Output		33
Computer Searches		37
MICROFILM EQUIPMENT		41
Introduction		41
Rolls and Cartridges		43
Microfiche		46
Jackets		49
Aperture Cards		49
Ultra-fiche		51
APPENDIX		56
Definitions		61
BIBLIOGRAPHY		68

LIST OF FIGURES

	Page
1. Conventional Grouping	10
2. Inverted Grouping	11
3. Uniterm Cards	17
4. Dual Dictionaries	18
5. Edge-Notched Cards	20
6. Search on Optical Coincidence Cards	23
7. Equipment for Optical Coincidence Cards	24
8. Punched Card	28
9. Cartridge Microfilm	44
10. Microfiche	47
11. Aperture Cards	49
12. Ultra-fiche	52
