FOREWORD

The papers and discussions in this Symposium on Testing Adhesives for Durability and Permanence were presented at the Twenty-fourth Session of the Fifty-fifth Annual Meeting of the American Society for Testing Materials held in New York, N. Y., June 26, 1952. The Symposium was sponsored by Committee D-14 on Adhesives. Mr. A. G. H. Dietz, Professor of Structural Engineering, Massachusetts Institute of Technology acted as Chairman of the Session, while Mr. G. W. Koehn of the Armstrong Cork Co. acted as Secretary and contributed much to the success of this Symposium.

THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations co-operating. A list of A.S.T.M. publications and information on the work of the Society will be furnished on request.
