## FOREWORD

---

The papers and discussions in this Symposium on Direct Shear Testing of Soils were presented at the Twenty-eighth Session of the Fifty-fifth Annual Meeting of the American Society for Testing Materials, held in New York City, June 26, 1952.

This session was sponsored by Committee D-18 on Soils for Engineering Purposes and presided over by Mr. G. P. Tschebotarioff, Professor of Civil Engineering, Princeton University, Princeton, N. J.

---

**NOTE.**—The Society is not responsible, as a body, for the statements  
and opinions advanced in this publication.

## CONTENTS

---

	PAGE
Introduction—Frederick J. Converse.....	1
The Place of the Direct Shear Test in Soil Mechanics—Donald M. Burmister.....	3
Use of Direct Shear Tests in Highway Design—Edward S. Barber.....	19
Use of Direct Shear Tests in Earth Work Projects Under Construction—R. R. Proctor.....	36
The Strength of Gravel in Direct Shear—R. G. Hennes.....	51
A Direct Shear Test with Drainage Control—Donald W. Taylor.....	63
The Use of the Direct Shear Testing Machine in Foundation Engineering Practice— Frederick J. Converse.....	75
Panel Discussion.....	81

THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations co-operating. A list of A.S.T.M. publications and information on the work of the Society will be furnished on request.
