FOREWORD

The papers and discussions in this Symposium on Speed of Testing were presented at the Eighteenth Session of the Fifty-eighth Annual Meeting of the American Society for Testing Materials, held in Atlantic City, N. J., June 29, 1955. This Symposium was sponsored by Committee E-1 on Methods of Testing. Mr. F. M. Howell, Aluminum Company of America, New Kensington, Pa. acted as Chairman for the Session, while Mr. F. G. Tatnall, Baldwin-Lima-Hamilton Corp., Philadelphia, Pa., acted as Symposium Chairman.

**NOTE.—The Society is not responsible, as a body, for the statements
and opinions advanced in this publication.**

CONTENTS

	PAGE
Introduction	1
The Influence of Rate of Loading on the Strength of Wood and Wood-Base Materials —L. J. Markwardt and J. A. Liska	3
Discussion	18
The Effect of Speed of Testing on Glass—H. N. Ritland	19
Discussion	29
The Effects of Speed in the Mechanical Testing of Plastics—A. G. H. Dietz and F. J. McGarry	30
Discussion	43
Preliminary Data Obtained in Constant Strain Rate Tests—George R. Ruggers	45
Stress-Strain Relationships in Yarns Subjected to Rapid Impact Loading—Herbert F. Schiefer, Jack C. Smith, Frank L. McCrackin, and Walter K. Stone	47
Effect of Speed of Testing on the Tension Test of Elastomers and Hard Rubber—D. C. Scott, Jr. and D. S. Villars	62
Review of Data on Effect of Speed in Mechanical Testing of Concrete—Douglas Mc- Henry and J. J. Shideler	72
Notes on Effect of Speed of Testing on Tensile Strength and Elongation of Paper— Ralph E. Green	83

THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Much of the data result from the voluntary contributions of many of the country's leading technical authorities from industry, scientific agencies, and government.

Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the ASTM technical committees, or compilations of data developed in special Society groups with many organizations cooperating. A list of ASTM publications and information on the work of the Society will be furnished on request.
