

# Index

## A

AASHTO Standard T 242, 38  
 Anionic asphalt emulsion, 77  
 Asphalt cement, AC 2.5, 77  
 Asphalt polymer, 66, 68  
 ASTM standards  
   D 1856, 77  
   D 3387, 82  
   E 274, 38  
   E 503, 37  
   E 556, 39  
   E 670, 36

## B

Balmer, Glenn G., 33-50

## C

Chong, George J., 3-17  
 Cold-mix recycling, 75  
 Condition survey, highway, 4  
 Cost effectiveness of maintenance treatment, 8  
 Crack sealing  
   Guidelines, 14  
   Methods and materials, 14, 15  
   Rationale, 11, 12  
   Research and improvement, 15

## D

Deen, Robert C., 18-32  
 Deflections, dynamic  
   Deflection bowl, 21

Errors, 23

Kentucky Road Rater, 20  
 Reference conditions, 21  
 Sampling and statistics, 28

## E

Expected life of maintenance alternatives, 7, 8

## F

Friction characteristics, remedial procedures  
   Grooving, 47, 48  
   Milling, 46, 47  
   Open-graded friction course, 48, 49  
   Resurfacing, 48  
   Sprinkle treatment, 48  
 Friction, pavement measurement methods  
   Articulation angle, 41, 42  
   At intersections, 43  
   Diagonal braked vehicle, 37, 38  
   Dynamic vertical test-wheel load, 43, 44  
   Mu-meter, 36, 37  
   Saab friction tester, 45, 46  
   Side force measurement transducer, 39  
   Single wheel tester, 44, 45

## G

Gyratory indices  
 Compactibility, 80

Elasto-plastic, 79  
 Stability, 79  
 Gyratory testing machine, 75, 76

**H**

Hoffman, Gary L., 51-64

**K**

Kallas, Bernard F., Editor, 1, 2  
 Knight, Norman E., 51-63

**M**

Maintenance guidelines, pavement, 4  
 Maintenance performance standards, 7  
 Marshall stability, 80  
 Membranes  
     Asphaltic mastic and nonwoven polypropylene fabric, 54  
     Fiberglass mesh polymer modified asphalt and nonwoven polypropylene fabric, 54  
     Fiberglass woven fabric and polymerized asphalt, 54  
     Polypropylene woven mesh and self-adhesive rubberized asphalt, 54  
     Rubberized asphalt impregnated nonwoven polypropylene fabric, 54  
     Rubberized asphalt with polypropylene mesh, 52  
 Moduli, asphalt concrete, 24

**O**

Overlay design, 29

**P**

Pavement condition rating, 10  
 Phang, William A., 3-17  
 Preventive maintenance, 10

**R**

Recycling agents, 77  
 Rowlett, David R., 64-73

**S**

Sharpe, Gary W., 18-32  
 Southgate, Herbert F., 18-32  
 Stabilometer resistance value, 80  
 Subgrade strength, 25

**T**

Tia, Mang, 74-94  
 Tonda, Richard D.,

**U-Z**

Uffner, William E., 64-73  
 Wood, Leonard E., 74-94  
 Woven glass fiber fabric, 66  
 Zimmer, Richard A., 33-50
