NOTE

The Society is not responsible, as a body,
for the statements and opinions
advanced in this publication.

Peer Review Policy

Each paper published in this volume was evaluated by three peer reviewers. The authors addressed all of the reviewers' comments to the satisfaction of both the technical editor(s) and the ASTM Committee on Publications.

The quality of the papers in this publication reflects not only the obvious efforts of the authors and the technical editor(s), but also the work of these peer reviewers. The ASTM Committee on Publications acknowledges with appreciation their dedication and contribution of time and effort on behalf of ASTM.

Foreword

The symposium on Carbonate Additions to Cement was held in Baltimore, Maryland on 29 June 1988. The symposium was sponsored by ASTM Committee C-1 on Cement. Paul Klieger, Northbrook, Illinois and R. Douglas Hooton, University of Toronto, presided as symposium chairmen and are editors of this publication.

Contents

Overview	1
Limestone Additions to Portland Cement—An Old Controversy Revisited— L. L. MAYFIELD (Reprinted from <i>Cement, Concrete, and Aggregates</i> , Vol. 10, No. 1, Summer 1988)	3
Carboaluminate Reactions as Influenced by Limestone Additions— KEVIN INGRAM, MATT POSLUSNY, KEN DAUGHERTY, AND WALT ROWE Discussion	14 22
The Influence of Limestone Additions on the Rheological Properties and Water Retention Value of Portland Cement Slurries— CLAUDIO S. NETO AND VICENTE C. CAMPITELI	24
The Influence of Limestone Additions on Optimum Sulfur Trioxide Content in Portland Cements— VICENTE C. CAMPITELI AND MARIA C. FLORINDO	30
Effect of Limestone Additions Upon Drying Shrinkage of Portland Cement Mortar— LAWRENCE D. ADAMS AND RONALD M. RACE	41
The Effect of Steam Curing on High-Early Strength Portland Cement Containing Carbonate Addition— CLAUDE BÉDARD AND MARC BERGERON	51
An Investigation of the Formation of Carboaluminates— WALDEMAR A. KLEMM AND LAWRENCE D. ADAMS	60
Effects of Carbonate Additions on Heat of Hydration and Sulfate Resistance of Portland Cements— R. DOUGLAS HOOTON	73
