## CONTENTS

	PAGE
Introduction . . . . .	1
Identification and Mode of Formation and Re-Solution of Sigma Phase in Austenitic Chromium-Nickel Steels—E. J. Dulis and G. V. Smith . . . . .	3
Discussion . . . . .	30
Sigma Phase in Several Cast Austenitic Steels—V. T. Malcolm and S. Low . . . . .	38
Discussion . . . . .	45
X-ray Study of the Sigma Phase in Various Alloy Systems—Pol Duwez and Spencer R. Baen . . . . .	48
Discussion . . . . .	55
Sigma Phase in Chromium-Molybdenum Alloys with Iron or Nickel—John W. Putman, N. J. Grant, and D. S. Bloom . . . . .	61
Discussion . . . . .	69
The Tetragonality of the Sigma Phase in the Iron-Chromium System—L. Menezes, J. K. Røros, and T. A. Read . . . . .	71
Discussion . . . . .	74
The Formation of Sigma Phase in 17 per cent Chromium Steel—J. J. Heger . . . . .	75
Discussion . . . . .	79
Sigma Phase and Other Effects of Prolonged Heating at Elevated Temperatures on 25 per cent Chromium-20 per cent Nickel Steel—G. N. Emmanuel . . . . .	82
The Occurrence of the Sigma Phase and Its Effect on Certain Properties of Cast Fe-Ni-Cr Alloys—J. H. Jackson . . . . .	100
Joint Discussion . . . . .	120
The Formation of Sigma and Its Influence on the Behavior of Stabilized 18 per cent Chromium - 8 per cent Nickel Steels in Concentrated Nitric Acid—Raymond S. Stewart and Stephen F. Urban . . . . .	128
Some Notes on the Structure and Impact Resistance of Columbium-Bearing 18-8 Steels After Exposure to Elevated Temperatures—W. O. Binder . . . . .	146
Discussion . . . . .	164
Observations of the Effect of Sigma on the Mechanical Properties of Columbium-Stabilized Weldments in Austenitic Stainless Steels—F. W. Schmitz and M. A. Scheil . . . . .	165
Discussion . . . . .	178

THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations co-operating. A list of A.S.T.M. publications and information on the work of the Society will be furnished on request.
