

SYMPOSIUM ON SPECIFIC GRAVITY OF BITUMINOUS COATED AGGREGATES

Presented at the
FIFTY-NINTH ANNUAL MEETING
AMERICAN SOCIETY FOR TESTING MATERIALS
Atlantic City, N. J., June 18, 1956

Reg. U. S. Pat. Off.

ASTM Special Technical Publication No. 191

Price \$2.00; to Members, \$1.50

FOREWORD

The First Session of the Fifty-ninth Annual Meeting of the American Society for Testing Materials, held in Atlantic City, N. J., June 18, 1956, was devoted to the Symposium on Specific Gravity of Bituminous Coated Aggregates. This Symposium was sponsored by Committee D-4 on Road and Paving Materials, and the Session was under the Chairmanship of Mr. H. T. Williams, Duquesne Slag Products Co., Youngstown, Ohio. The Symposium was developed by Subcommittee B-14 on Specific Gravity of Fine and Coarse Aggregates of which Mr. Williams is Chairman.

Note.—The Society is not responsible, as a body, for the statements and opinions advanced in this publication.

CONTENTS

•	AU
The Role of Specific Gravity in the Design and Control of Bituminous Paving Mixtures—C. A. Carpenter	1
Measurement of Bituminous Concrete Core Specific Gravities and Specific Gravities of Bituminous Coated Coarse Aggregates by Means of a Volumeter—F. M. Williams, L. E. Grimmer, M. M. McAdams, and S. Yanoshek	4
Discussion	22
Measurement of Maximum Theoretical Specific Gravity of a Bituminous Mixture by Solvent Immersion—Paul J. Serafin	25
Discussion	34
Development and Application of the Effective Specific Gravity of Bituminous Coated Aggregates—J. Rogers Martin and Andrew H. Layman, Jr	38
Maximum Specific Gravity of Bituminous Mixtures by Vacuum Saturation Procedure —James M. Rice	43
Discussion	56
Specific Gravity and Voids Relationships in Bituminous Pavement Mix Design-	
J. L. McRae	62
Discussion	66
Conoral Discussion	60

THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Much of the data result from the voluntary contributions of many of the country's leading technical authorities from industry, scientific agencies, and government.

Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the ASTM technical committees, or compilations of data developed in special Society groups with many organizations cooperating. A list of ASTM publications and information on the work of the Society will be furnished on request.
