### NOTE

The Society is not responsible, as a body,  
for the statements and opinions  
advanced in this publication.

### Peer Review Policy

Each paper published in this volume was evaluated by three peer reviewers. The authors addressed all of the reviewers' comments to the satisfaction of both the technical editor(s) and the ASTM Committee on Publications.

The quality of the papers in this publication reflects not only the obvious efforts of the authors and the technical editor(s), but also the work of these peer reviewers. The ASTM Committee on Publications acknowledges with appreciation their dedication and contribution of time and effort on behalf of ASTM.

## Foreword

This publication, *Functional Testing of Aquatic Biota for Estimating Hazards of Chemicals*, contains papers presented at the Symposium on Functional Testing for Hazard Evaluation, which was held in Bal Harbour, Florida, on 6–7 Nov. 1986. The symposium was sponsored by ASTM Committee D-19 on Water. John Cairns, Jr., Virginia Polytechnic Institute and State University, presided as symposium chairman. Dr. Cairns and James R. Pratt, Pennsylvania State University, were the editors of this publication.
