Peer Review Policy

Each paper published in this volume was evaluated by three peer reviewers. The authors addressed all of the reviewers' comments to the satisfaction of both the technical editor(s) and the ASTM Committee on Publications.

The quality of the papers in this publication reflects not only the obvious efforts of the authors and the technical editor(s), but also the work of these peer reviewers. The ASTM Committee on Publications acknowledges with appreciation their dedication and contribution of time and effort on behalf of ASTM.

Foreword

The papers in this publication, *Asphalt Concrete Mix Design: Development of More Rational Approaches*, were presented at the symposium on Development of More Rational Approaches to Asphalt Concrete Mix Design Procedures held 9 December 1987 in Bal Harbour, Florida. The symposium was sponsored by ASTM Committee D-4 on Road and Paving. William Gartner, Jr., The Asphalt Institute, is editor of this publication.
