Foreword

The Symposium on the Effects of Residual Elements on Properties of Austenitic Stainless Steels was presented in two sessions during the 69th Annual Meeting of the Society, in Atlantic City, N. J., 26 June–1 July, 1966. The symposium was sponsored by Committee A-10 on Iron-Chromium, Iron-Chromium-Nickel and Related Alloys. The symposium chairman was R. B. Gunia, U. S. Steel Corp. Presiding at the two sessions were S. E. Tyson, Carpenter Steel Co., and M. W. Marshall, Armco Steel Corp.

Contents

Introduction	1
Influence of Residual and Minor Elements on the Pitting and Atmospheric Corrosion Resistance of Austenitic Stainless Steels—ARTHUR MOSKOWITZ, G. A. SALTZMAN, K. E. PINNOW, AND L. S. REDMERSKI	3
Discussion	22
Effects of Residual Elements on Cold Rolling and Finishing of Austenitic Stainless Steels—T. A. PRUGER, F. BLAKE, AND J. A. VALLEY	24
Residual Elements in Austenitic Stainless Steels—The Melt Shop Viewpoint—G. N. GOLLER	37
Discussion	45
Effects of Minor Constituents on Irradiation Damage to Austenitic Stainless Steels—A. L. BEMENT	46
Discussion	77
Residual Elements and Their Effect on Applications of Austenitic Stainless Steels in the Power Industry—I. A. ROHRIG	78
Effects of Residual Elements on the General Corrosion Resistance of Austenitic Stainless Steels—L. R. SCHARFSTEIN	90
Weldability of Austenitic Stainless Steels as Affected by Residual Elements—G. E. LINNERT	105
Discussion	119
Residual Elements in Stainless Steel—General Characteristics—J. J. HEGER	120

THIS PUBLICATION is one of many issued by the American Society for Testing and Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Much of the data result from the voluntary contributions of many of the country's leading technical authorities from industry, scientific agencies, and government.

Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the ASTM technical committees, or compilations of data developed in special Society groups with many organizations cooperating. A list of ASTM publications and information on the work of the Society will be furnished on request.
