## FOREWORD

---

The papers and discussions in this Symposium on Statistical Aspects of Fatigue were presented at the Seventh Session of the Fifty-fourth Annual Meeting of the American Society for Testing Materials held in Atlantic City, N. J., June 19, 1951. The Symposium was sponsored by Committee E-9 on Fatigue under the chairmanship of Mr. R. E. Peterson, Westinghouse Research Laboratories.

---

**NOTE.**—The Society is not responsible, as a body, for the statements and opinions advanced in this publication.

## CONTENTS

---

	PAGE
Introduction—R. E. Peterson.....	1
Planning and Interpretation of Fatigue Tests—Alfred M. Freudenthal.....	3
Discussion.....	14
On the Statistical Nature of Fatigue—Foster B. Stulen.....	23
Discussion.....	41
Statistical Analysis of Fatigue Data—Robert Plunkett.....	45
Discussion.....	55
General Discussion.....	59

THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations co-operating. A list of A.S.T.M. publications and information on the work of the Society will be furnished on request.
