Roster Maintenance

Helping Our World Work Better®

Why is Roster Maintenance Used?

- Assigning classification and voting privileges to new members and members that change employment
- Maintaining balance as the roster changes
- Generating reports, such as membership reports for meetings
- Adjustments and changes to existing member voting or classification status, for example due to member ballot inactivity

Who uses Roster Maintenance?

- Membership Secretaries (Main Committee)
- Subcommittee Chairs (Subcommittees)
- Officers (reports only)

Steps in the Membership Classification & Voting Process

- Receive email notice of new member application

- Pending applications are compared to existing Roster and Scope of Committee.

- Executive majority approval required for all Main Committee assignments.

- Any member can request the Executive to review and consider additional information.
- COTCO appeal review

7 Classification of Committee Members

7.1 *Classification* — On classified committees and subcommittees, members shall be classified according to voting interest. The classification of a member at main committee may be different from the classification at subcommittee level; however, a member classified on any subcommittee as a producer shall be classified as a producer on the main committee. (See Section 4 for Committee and Subcommittee Membership Assignment.)

7.1.1 *Producer* — A member who represents a voting interest that produces or sells materials, products, systems, or services covered in the committee or subcommittee scope.

7.1.2 *User* — A member who represents a voting interest that purchases or uses materials, products, systems, or services other than for consumer use (See 7.1.3) covered in the committee or subcommittee scope provided that the member could not also be classified as a producer.

7.1.3 *Consumer* — A member who primarily uses, purchases or represents those who use or purchase products and services for personal or non-commercial use within the committee or subcommittee scope.

Discussion — Example Consumer classifications can include both end-consumers and consumer advocates who use, or represent those who use, goods or services for personal, social, family, household use and similar needs, and cannot be classified under another interest category.

7.1.4 *General Interest* — A member who cannot be categorized as a producer, user, or consumer.

Discussion — User and general interest classifications are composed of multiple interest categories such as government, academia, testing laboratories, consultants, etc., and no one of the interest categories constitutes a majority of the total committee membership.

**Committees may further define classifications within their Committee Bylaws*

Consultants & Trade Associations

From the ASTM Regulations

➤ 7.2 *Consultants*

- ✓ 7.2.1 A member serving as a consultant retained by a voting interest, whereby the arrangement includes representing it on an ASTM committee or subcommittee, shall be considered the same classification and voting interest as that by which the member is retained
- ✓ 7.2.2 A member serving as a consultant for multiple voting interests of exclusively the same classification shall be classified in accordance with those voting interests' principal business activities.

➤ 7.3 *Trade Associations*

- ✓ 7.3.1 A trade association for multiple organizations of exclusively the same classification shall be classified in accordance with those organizations' principal business activities.
- ✓ 7.3.2 A trade association consisting of a single member organization shall have the same classification and voting interest as that member organization.

Classification Assignments

To assign classification, answer these questions based on the Member Application:

- How do the ASTM Regulations, or the Committee Bylaws, define producer, user, consumer, or a general interest?
- What is their primary interest (ex: company focus or individual's primary products/services provided) in relation to the scope of the committee or subcommittee?

Official Vote & Voting Interest

Official Vote*

- One cast by a voting member on a ballot or motion, and that is used for calculating the numerical voting requirements

Voting Interest

- An organization, a subsidiary of an organization, or an individual member having a distinctly separate interest from any other interest with regard to the scope of a committee or subcommittee.
- *Non-official voting member - a member whose votes and comments on all ballots or motions shall be fully considered, but whose votes are not included in the calculation of the numerical voting requirements for standards.

Who gets an official vote?

All members shall be given an official vote unless:

- The member's voting interest already has been granted one official vote
- Acceptance will create an imbalance on a committee or subcommittee due to Producer votes outweighing other interest categories

Classification and Voting Status

**Classified Technical Committees are balanced.
No excess influence by any interest group.**

Balance in ASTM is defined as: balance, n — in a classified committee or subcommittee, when the combined number of voting user, consumer, and general interest members equals or exceeds the number of voting producer members.

Official Vote Assignment

To assign an official vote, answer these questions:

1. Is there a member from the same voting interest already on the committee who currently has an official vote?
 - If no, assign the official vote
 - If yes, the new member cannot also hold an official vote (No, Redundant Interest)
2. Will assigning a vote create an imbalance in the committee or subcommittee? (i.e. Producers would outweigh the other interest categories)?
 - If no, assign the official vote
 - If yes, the new member can be placed on a wait list for a vote (No, Wait List)

Handling New Member Applications & Change of Employment

- Authority granted by Executive Subcommittee to Membership Secretary to approve applications between meetings
 - ✓ Action is subsequently reviewed by Exec
- Create a Membership Report for review by Executive
- Main Committee Rosters can be approved either by
 - ✓ Executive Subcommittee Meetings
 - ✓ Ballot of Executive Subcommittee
- Subcommittee Chairs have authorization over Subcommittee Rosters

New Member Application or Change of Employment, Notice

ASTM Member - New or Changing Employment - D10.21.03

member@astm.org
To ● Farrell, James

Dear ASTM International Committee Officer:

ASTM has received an application from a member either expressing interest in joining D10.21.03 or who has recently changed employment. Headquarters has placed the new member as "Pending" on D10.21.03.

Please log in to your MyASTM page via <https://myastm.astm.org> to access your "MyCommittees" page and select "Roster Maintenance" from the My Tools list to review the membership application and assign classification and voting status.

If you have questions about the assignment of classification and voting interest, please ask your Staff Manager.

Thank you for your cooperation.

Sincerely,

Committee Services

Producer Waitlist

- Created when the number of potential voting producers is greater than the number of voting user, general interest and consumer members combined.
- Producers are removed from the wait list and given votes when:
 - ✓ New user and general interest members are added as voting members
 - ✓ Other producer members resign

Notification to Member

Member Classification Changed To Producer

ASTM INTERNATIONAL

Helping our world work better

This is an automated alert from ASTM International.

Hello Julanna Longorio,

Within ASTM, roster maintenance is performed by the responsible committee officer. Provisions for official voting and assignment of classification are made based on review of new member applications, change of employment submissions and, as needed, updates that maintain committee balance. On 01/10/2024 an officer of Committee C07.90 updated your membership based on information you provided.

As a result, you have been assigned the classification of Producer. Please note, in some cases, changes to classification on the main committee may be made automatically. ASTM Regulations state that a member classified on any subcommittee as a Producer shall be classified as a Producer on the main committee. If you were recently classified on a subcommittee as Producer, your classification may have automatically been changed to Producer for this main committee.

Subject: ASTM Committee F18 and Subcommittee Ballot Inactivity Notification

Your participation in the development and maintenance of technically sound F18 standards is critical. Ballot return is an integral part of the consensus process and is a requirement of official voting members.

ASTM Regulations require that we notify official voting members of ballot inactivity. Failure to return three consecutive ballots will result in termination of a member's official vote (see section 5 of the [Regulations Governing ASTM Technical Committees](#)) in the absence of circumstances acceptable to the Executive Subcommittee (Main Committee ballots) or the Subcommittee Chair (Subcommittee ballots).B

ASTM's balloting records indicate that we have not received your response to the consecutive ballots detailed in the link below. Please click on this link to review your ballot inactivity summary and to advise the Committee regarding your future voting status/membership.

Alternatively, please copy and paste the hyperlink address into your Internet browser.

If you have experienced technical difficulties with the ASTM ballot process, we apologize and would appreciate you alerting your staff manager as soon as possible. If you have had a change in email address or employment that may have prevented ballot notifications from reaching you, please update your contact information on the website at <https://member.astm.org/MyASTM>.

Thank you.

Ballot Inactivity Report

ASTM Committee C28

Membership Report

Summary Report of C28 Ballots Not Returned

In accordance with ASTM Regulations, failure to return three consecutive main committee ballots shall result in termination of official votes in the absence of circumstances acceptable to the executive subcommittee. This report should be discussed at the upcoming meeting. The Membership Secretary should complete any approved changes in the Roster Maintenance application or contact your staff manager for assistance.
