

ASTM International – Graduate Scholarship

Information and Application Form

OBJECTIVE

The objective of the ASTM International Graduate Scholarship program is to enhance a student's knowledge, understanding, and application of ASTM International and its standards. For more information on ASTM International, [click here](#).

CRITERIA

The ASTM International Graduate Scholarship is presented each year to as many as four high-potential graduate students, contingent upon merit and available funds. The Scholarship rewards graduate students who have demonstrated high levels of interest or involvement with ASTM Standards. During the year of the award (not necessarily at the time of application), the student must be accepted in a Masters or Doctoral program from an accredited institution, or one that is recognized by the national responsible agency, and shall possess a bachelor's degree from an accredited institution of higher education. All applicants must be proficient in the English language, and pursuing studies in an appropriate curriculum related to the scope of the activities of ASTM International. Finalists chosen for consideration must agree to be interviewed, either by teleconference or virtual meeting.

THE SCHOLARSHIP

Each recipient of the ASTM International Graduate Scholarship shall receive \$10,000 to be used for their educational expenses to include tuition, books, fees and materials. Any unused scholarship funds shall be returned to ASTM International at the end of the academic year. Each recipient is limited to two years of funding and must reapply to be eligible for funding for a second academic year. Scholarship recipients receive their award checks in late August. Each check is made payable to the recipient and mailed to the Department Head at the University the student is attending. The student should contact the Department Head to arrange to pick up his/her award.

FORMS INCLUDED

- Student Scholarship Application
- Faculty Reference Form
- Scholarship Renewal Application (not required for 1st time applicants)

ASTM International – Graduate Scholarship

Student Application for:

(Applicant Name)

Instructions to Applicant

1. This application has been prepared as a means of obtaining necessary information regarding the applicant. The applicant is required to give all information requested (unless noted as “optional”). Read the contents carefully and understand each question and all information requested.
2. No consideration will be given to carelessly prepared or incomplete applications; answers must be legible and provided in English.
3. Every question and statement must be answered and submitted. Do not answer any question with a check mark. If the answer is “none” or “does not apply”, it should be so stated. If spaces are inadequate for some answers, use a separate sheet.
4. Submit the following requested information electronically to tmurdock@astm.org by no later than April 30th. Transcripts and reference forms may be scanned and sent electronically or mailed to the following address:
ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428, USA, Attention: Travis Murdock
 - a. The forms Scholarship Application and one Scholarship Reference Form (completed by a teacher or faculty member)
 - b. An up-to-date copy of the applicant's official college transcript of academic record
 - c. A one-page narrative from the applicant (1000 words or less) reflecting interest in, and any experience or accomplishments toward, a career surrounding the use, development, or application of ASTM International standards
 - d. A current resume or CV that is no longer than two pages
 - e. Your consent to our contacting references and schools, and/or confirming any information provided in this application
 - f. A written publication or long technical abstract attesting to proficiency in English

Criteria of Qualification for Student Applications

ASTM International may establish reasonable and operable procedures and qualifications for determining the selection of the student or students considered as recipients of scholarships, provided they are not in conflict with criteria or guidelines herein stated, and as follows:

1. The use of scholarship funds shall be predicated on the student's enrollment or the continuance of graduate education in a recognized and/or accredited school such as college or university or as may be acceptable to ASTM International. The awarded funds shall be used for such purposes as tuition, books, fees, and materials.
2. A record of evidence of satisfactory scholastic or school grades, ability, ambition, and continuance of education shall be submitted.
3. Any unused scholarship funds shall be returned to ASTM International at the end of the academic year. Students desiring continuation of funding for a second year may submit a Renewal Form and accompanying information. ASTM International Graduate Scholarships are limited to two years of funding.
4. Current or former ASTM employees or their children, current students enrolled at the university where the Scholarship Selection Team members teach, and current members of the ASTM board of directors or their children, are not eligible.
5. In any given year, ASTM shall not award scholarships to more than one student enrolled in the same University department.
